

Care & Maintenance

Daily Use

For day-to-day maintenance, one of the following products can be used. These cleaning agents have a slight cleansing effect and serve primarily to degrease and remove common impurities on the kitchen counter. Always follow the manufacturer's recommendations and read the composition and use safety data sheets.

Special Products

For resilient stains (i.e. oil, rust, cement, adhesives), we recommend the following products in particular. These cleaners are mostly based on moderate acids and alkalis, therefore use caution when applying, minimize action time, dilute the product, and rinse thoroughly with water after application.

Before each use of the selected detergent, we recommend that you test it on a small area. Always follow the manufacturer's recommendations, read the composition and use safety data sheets. After using detergents, the surface of the product should always be thoroughly washed with clean water.

FOR EVERYDAY CLEANING

	COMPANY	NAME
Standard Household Cleaners for everyday cleaning	Lysol	All Purpose Cleaner
	Fantastik	All Purpose Cleaner
	Method	Glass Cleaner
	Formula 409	Multisurface Cleaner

	Lysol All Purpose Cleaner
Stronger cleaners*	Clorox with Bleach
	Clorox Scentiva
	Zep - Heavy-Duty Citrus Degreaser

*pay attention about time of application and thorough removal - read the product instructions)

Treatment, Sealing, Impregnation

Special products are also available on the market to increase protection against staining (impregnation, wax-containing products) to ease normal housekeeping. Their use is especially recommended for special surface finishes (Matt) and high-stress surfaces (kitchens, bars, shops).

Depending on the level of surface load, the impregnation needs to be restored over time. Always apply the impregnating agents to a clean and dry surface using a microfiber cloth. After application, remove excess material and then grind gently. Leave to work for the period specified by the detergent manufacturer.

Water-based or solvent-based impregnations are available on the market, also available impregnation with highlighting (color intensifier) and no color accentuation.

Always follow the manufacturer's recommendations, read the composition and use (dilutions, safety data sheets).

SURFACE PROTECTION

COMPANY	NAME
Simple Green	Stone Polish
Miracle Sealants Company	511 Impregnator Sealer
Tenax	Quartz Shield
Granite Gold	Polish
Akemi	Stain Repellent Nano Effect

General Recommendations

- ✓ For long-term maintenance of polished material, it is not advisable to regularly cut food or other products directly on the worktop. Use a cutting board.
- ✓ Do not place hot items (eg cast pots) directly on the counter top, always use an insulating pad or trivet.
- ✓ Use caution when using special knives and sharp objects. (steaks, grilling needles).
- ✓ Use caution when handling dishes and other metal objects, especially at the edges or corners of the counter top and sink cutout.
- ✓ Do not allow these liquids to sit for prolonged periods (coffee, tea, wine, oil, etc.), remove them as soon as possible.
- ✗ Avoid splashing the counter top with strong cleaners for toilets, ovens, grills, stainless steel and hoods. These cleaners may contain substances that cause irreversible changes in the structure and color of the material (stainless steel cleaner, hood cleaner).
- ✗ The surface of the product is not permanently resistant to strong acids and bases (hydrochloric acid, phosphoric acid, sodium hydroxide, potassium hydroxide, hydrogen peroxide) and does not even resist hydrofluoric acid for a short time. These substances can be contained in some detergents available on the market, so it is important to read the composition of the products and use only as recommended.
- ✗ TechniStone® products are designed for interiors and are not UV resistant.

For more information, please refer to the supplier of the kitchen counter top or floor tiles and the manufacturer's website at www.technistone.com, where all the documents and materials are available for our partners, including the General Business Terms and Cleaning Manual.
